Dear Mr. Yturralde,

On behalf of TMC Migrant Seasonal Head Start program, allow me to express our gratitude for the collaboration that exists with your agency. Together we serve and meet the needs of the children in our community.

The intent of this letter is to request an updated collaborative agreement with TMC. Our agency recently revised the collaborative memorandum of agreement with local education agencies and school districts. Please find the enclosed agreement for your review. If these conditions are satisfactory, please sign and return the agreement at your earliest convenience. Should you find that an amendment is necessary, please call me so that we may address the matter expeditiously.

We look forward to our continued partnership and wish to thank you in advance for the opportunity to work together in preparing our children and families for success. Together we can provide the best quality of services to children and families as a team!

Respectfully,

Deanne Milford

TMC
MIGRANT SEASONAL HEAD START

Date: 02 / 18 / 15

Dear Randall Rapanut,

TMC Migrant Seasonal Head Start Program is coordinating Child Find efforts with community agencies and providers in an effort to locate children with disabilities.

TMC is currently recruiting children with disabilities that meet eligibility requirements for our program. The program provides integrated, developmentally appropriate Head Start services in accordance with the Individuals with Disabilities Education Act.

Included is 1) A Professional's Child Find Brochure that provides additional program and referral information. 2) A Parent's Child Find Brochures that provides information to families who may benefit from services. We would be pleased if you would share brochures with people you serve who might be interested in receiving TMC Migrant Seasonal Head Start services for their children with identified or suspected disabilities.

Thank you for helping TMC reach out to children with disabilities and their families.
