Background and Summary:

The Motor Pool within the Operations Department advised the Executive Director of Federal Programs that eight of the sedans driven by the Federal Social Workers have reached a point where they are beyond cost effective repair. The Executive Director request approval to redistribute a portion of the Title I Carryover funds from various line item balances in order to replace these aging vehicles. The scope of work for the Federal Social Workers requires them to travel between district campuses, and student homes, to address the needs of families in crisis and students who are at risk of failure or dropping out. The vehicles are an indispensable requirement for this important work.
