#### Background and Summary:

As a result of changes to 6.19.9 NMAC, a statement was added to Policy IKACA that for students not proficient on the mid-year benchmark assessment for literacy, the teacher must notify the student's parent or legal guardian formally, in writing, and hold an additional parent teacher conference. Regulation IKACA-R was also developed to describe the specific requirements regarding the (1) content of the Literacy Proficiency Notification sent to parents, (2) the information to be reviewed during the Literacy Proficiency Conference and (3) action to be taken by the Student Assistance Team in the development of an Academic Improvement Plan.
