Medium Work In Progress P20 6/5/2023 12:34:23 PM

Ambriz, Jose  
P20 only has 3 duct registers located at the rear of the classroom which does not adequately cool the room. The rear of the room is cold and the front of the room (west facing) stays extremely hot. Several work orders have been submitted and closed out because the AC blows cold and is functioning but unfortunately with the limited # & location of the ductwork the air is not being circulated throughout the room. Please install additional ductwork and registers in the middle and front of P20 for optimal cooling/heating. The janitor is currently waxing floors and will be finished by July 3, 2023.
