Title of Agenda Item: Fund 24189 Title IV Increase Bar 2023-2024

Board Meeting Date: August 10, 2023

Submitted By: Originator – Rosy Villalobos
Department – Federal Programs
Date – July 25, 2023

To Be Presented By: Rosy Villalobos, Assoc. Supt. For Federal Programs

Approved By: Ludym Martinez, Chief Finance Officer Date – July 25, 2023

Background and Summary:

The transfer increase is needed because we received an increase final award letter and carryover for \$515,870.00. Funds will be used for the STEM activities in the schools. At elementary schools we will provide the materials to create robotic programs from k-6. The LEGO robotics materials are research based, designed to support math and literacy instruction in the classrooms. At the Middle and High Schools, the Drones will support math and literacy instruction. Students need to use their math functions like calculus and trigonometry to program the drones, they need to implement measurement and programming to operate them. Besides they will use their ELA skills while documenting the Drones performance using their reading and writing skills. STEM activities at the High Schools like Esports will be supported with technology, student teams, competitions.
