

STRUCTURED LITERACY SCHOOL SUMMARIES

VADO ELEM:

Teacher Professional Development: \$8,000

- Professional Development for Teachers in Structured Literacy. Teacher will attend PD to learn more about the Science of Reading strategies and how to bring the strategies into their classrooms. Teachers will gain a greater understanding of how students learn to read and build their classroom instruction repertoire.

Additional Teacher Compensation (For Saturday Sessions): \$12,000

- Teachers will attend professional development on Saturdays. They will receive \$30 an hour in compensation for attending Saturday Professional Development sessions.

Supplies and Materials: \$30,000

- Supplies and materials to teach language arts using strategies and concepts from the Science of Reading

LOMA LINDA ELEM:

(Professional Development) \$15,000

(Supplies & Materials) \$30,000

(Stipend for Ana Nunez, Instructional Coach) \$5,000

The materials that will be purchased are to support Structured Literacy Initiative of phonics, reading comprehension, UFLI and phonemic awareness. The Professional Development that will be attended is for teachers to gain knowledge and strategies to share with the rest of the staff upon their return in a staff meeting or PD day.

BERINO ELEM:

Structured Literacy is an evidence-based approach that has shown remarkable efficacy in facilitating literacy acquisition among students, particularly those facing challenges in reading and writing. It employs systematic, explicit instruction to develop strong foundational skills in phonology, phonics, fluency, vocabulary, and comprehension. To ensure the effectiveness of this approach, it is imperative to have the necessary instructional materials and resources readily available in our classrooms.

By connecting the principles of Structured Literacy with our dual language program, we aim to provide our students with a comprehensive and robust approach to literacy education. This integration will not only support their proficiency in both languages but also enhance their overall literacy skills, benefiting their academic success across all subject areas.
