To Be Presented By: T. Dempsey

Approved By: L. Flores Date – 05/01/24

Background and Summary:

Policy BG's purpose is to ensure policy development is accomplished in a manner that support effective and efficient operations, includes multiple stakeholders/ experts, and requires policies be reviewed with adequate time to ensure board members understand possible consequences of enactment.

Recommendation:

Today's schools are complicated and dynamic organizations that require adequate time and study to develop policy that meets the needs of all schools and ultimately students. My recommendation regarding policy development is to assign a policy committee to work on policy proposals. This committee would assume the responsibility of vetting proposals then presenting to the board policies options that have been reviewed by board members, administration, legal counsel, and other departments/ stakeholders who are specialists in their field. Committee would include GISD administrators, up to 2 board members, and allow for specialists to participate when needed.
