# Facilities Master Plan Overview / Recommendations

January 10, 2006 Revised February 6, 2006

## Gadsden Independent School District

**Architectural Research Consultants Incorporated** 

Albuquerque, New Mexico • 505-842-1254 • Fax 505-766-9269 • Internet: www.ARCplanning.com

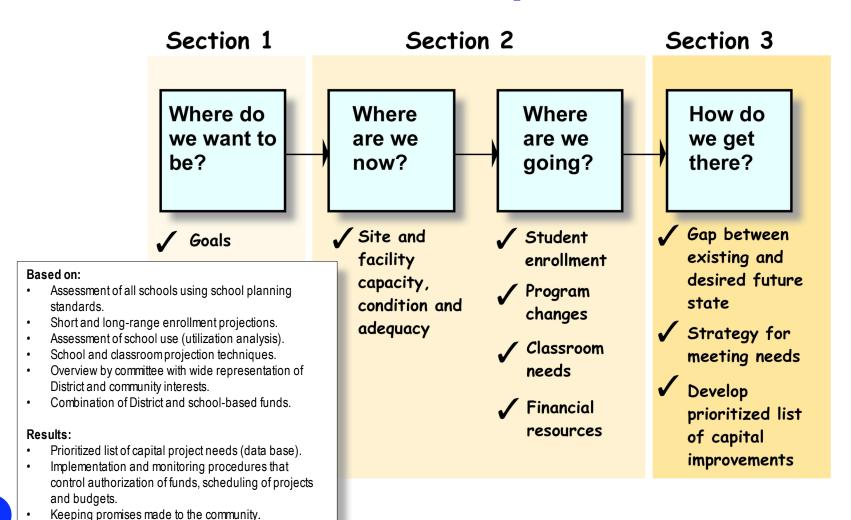

# **Agenda**

- Introduction / Process
- Condition of Existing Facilities
- Enrollment
- Utilization / Capacity
- Capital Program
- Priorities

# Introduction

# **Master Plan Components**

4

Gadsden Independent School District

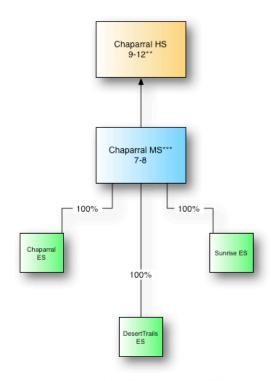

# **School Facility Data**

# Existing Facility Inventory and current planning information

#### ✓ District Totals

- Facilities
  - Pre-K program 2 (1 at Central Administration, 1 pending at La Mesa site)
  - Elementary Schools 14 (Northern ES in planning to replace San Miguel ES)
  - Middle Schools 3 (Future 4th MS site at San Miguel location)
  - High Schools 3 (1 under construction)
  - Alternative Schools 1
  - Administration 2 sites

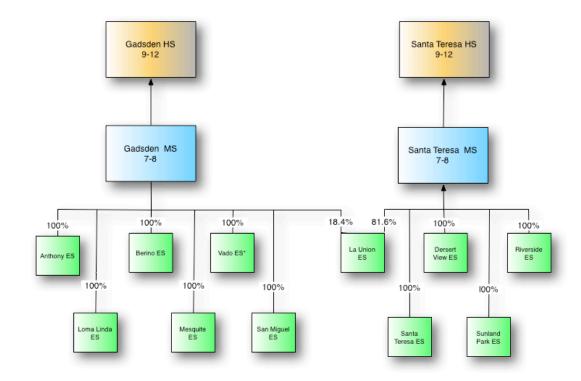

# **Existing School Configuration**

\*Vado ES replaces La Mesa ES (but students are still temporarily in La Mesa. La Mesa will become a Pre-K

\*\*Open for 9th Grade 08-09

\*\*\*Temporarily accommodating Chaparral HS enrollment

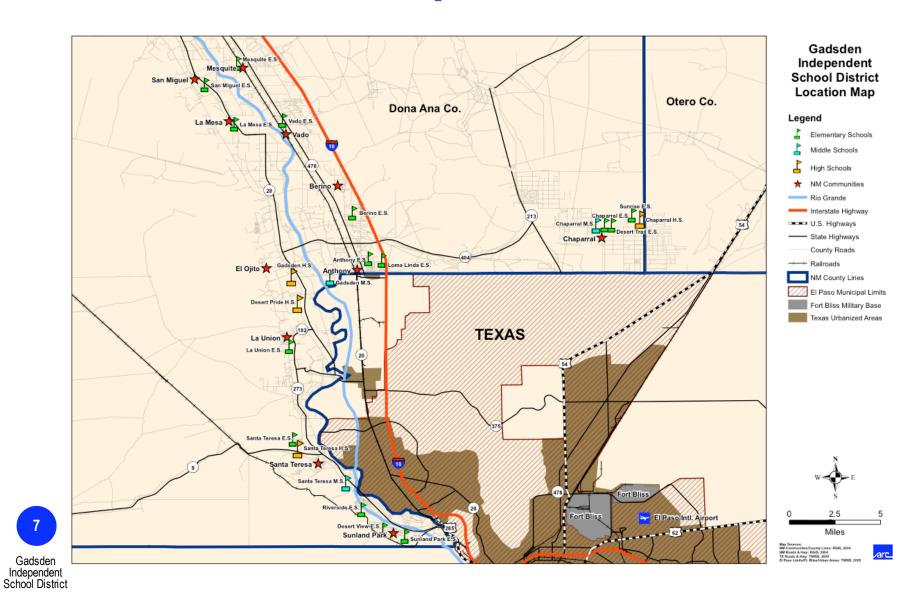

New Pre-K (La Mess)

Existing Pre-K (at District Office)

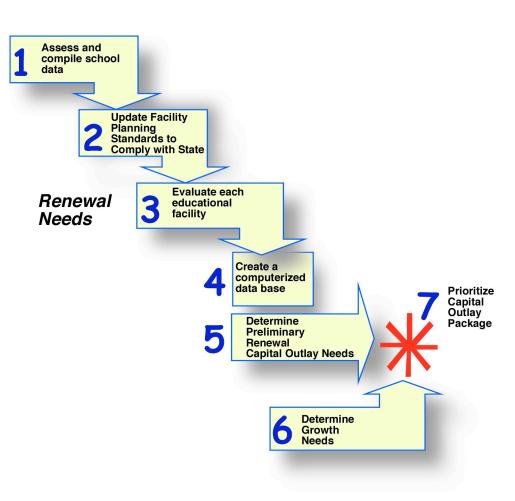

School District

# **Gadsden Independent Schools**

# **Needs in Existing Facilities**

School assessment planning process

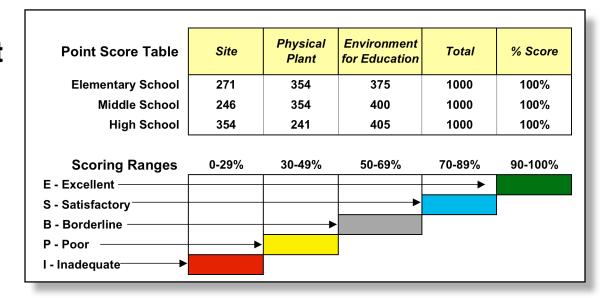

#### Gathered data

- ✓ Sent Site Manager's Questionnaire (Print & Webbased) and interviewed each principal while on evaluation
- ✓ Evaluated each site 1 day at ES, 2 days at MS, 3 to 4 days at HS, and 1 day each at Alternative / Admin sites
- Scored facilities on state adequacy and national standards
- ✓ Wrote summaries of needs for each school
- ✓ Created capital improvement projects (CIPs) for facilities and entered them into a database. All projects are coded for ease of sorting
- ✓ Interviewed district staff for their input on needs. Reviewed all CIPs with district staff

- "Scored" each site
- 81.3% is high average score. It relates to a district in growth mode where many new schools
- Distribution
  - ✓ Inadequate /
    Poor = 0
  - ✓ Borderline = 1
  - ✓ Satisfactory = 18
  - ✓ Excellent = 3

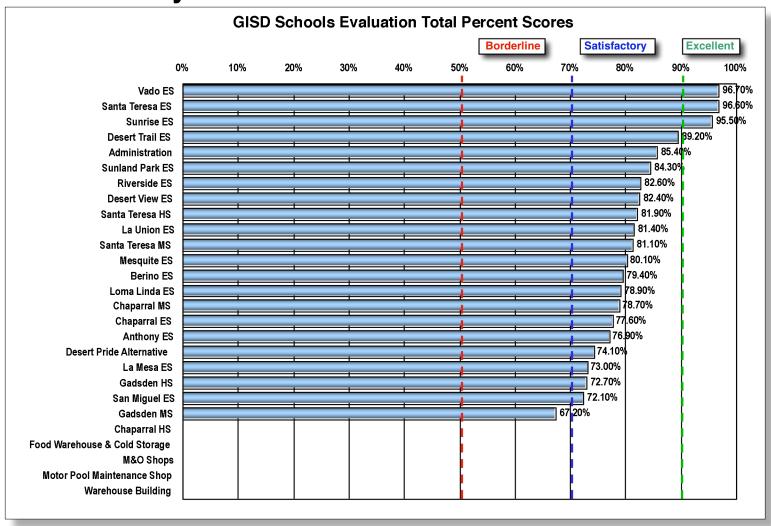

#### School Facility Evaluation Scores

12

Gadsden

Independent School District

#### Identified deficiencies

✓ Each capital improvement project (CIP) project coded and estimated and entered into a computerized database

Occupational Education

Priority/Timing

1. Immediate (year 1)
2. 2-3 years
3. 4-5 years
4. 6-10 years
5. 11-15 years
6. Annual Allocation
7. Board Policy Issue
8. Contingent on Planning
Study (2-5 years)

Difficulty Level
(ADA EVALUATION)

1. Readily Achievable
2. Achievable - High Cost
3. Difficult - High Cost

## **■** Two types of cost information are provided:

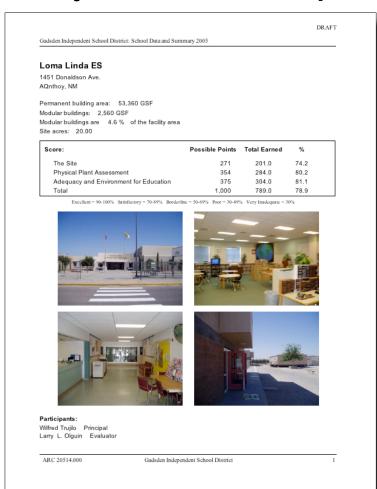

- ✓ Maximum Allowable Construction Cost (MACC)
  - Cost to the contractor (RS Means Cost Guides, local bid results, and ARC experience)
  - Reflects inflation to mid-2009
    - About 19.3% increase Jan 2006
    - The summer of the last bond sale

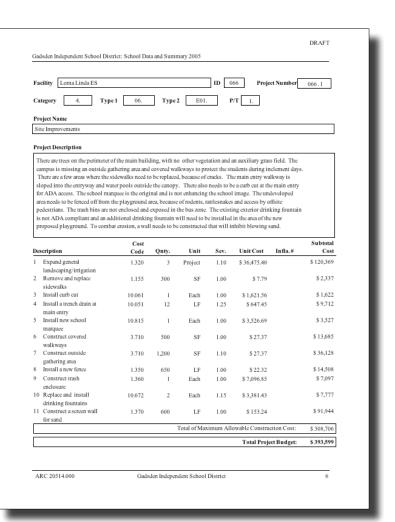

#### ✓ Total Project Costs

- Costs to the school district including project overhead:
  - Site Utility Costs
  - Equipment
  - Professional fees
  - Testing/Surveys
  - Taxes
  - Contingency
  - Contract administration

### Project Sheets - Examples

15

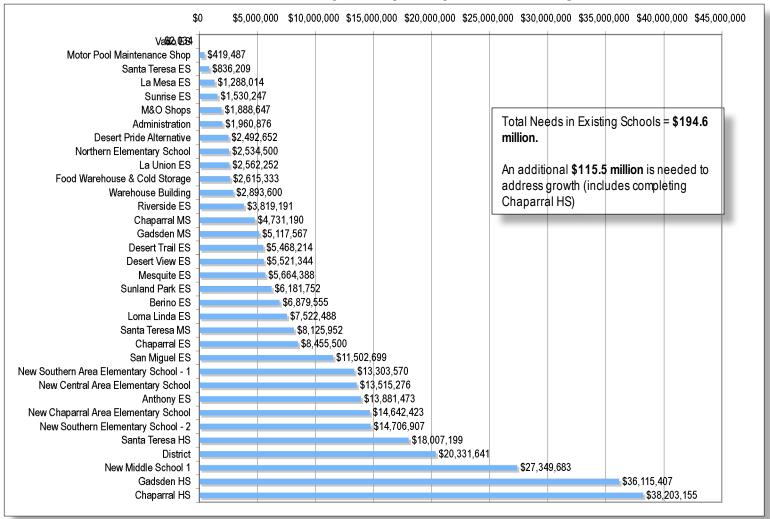

Gadsden Independent School District

ARC 20514

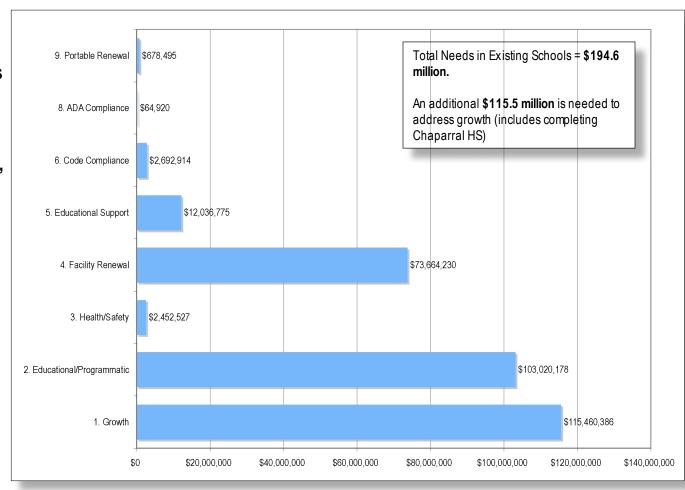

- Capital Improvement Project (CIP) Needs
  - ✓ CIP needs to address existing needs schools = \$194.6 million
  - ✓ Growth related projects = \$115.5 million
  - ✓ Total CIP needs = \$310.1 million

#### Capital Improvement Project (CIP) Needs by Site

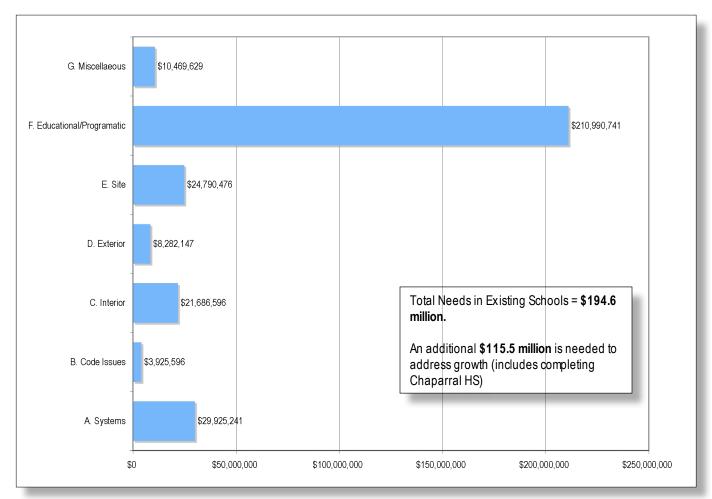

- 1. Growth -there are 4new ES and 1MS proposedin the 10 years
- 2. Additions for gyms, classrooms, media centers, labs, etc.
- 3. Health Safety low
- 4. Old school renovation needs
- 5. District oriented work
- 6.,8.,9.Continue upgrades code, ADA, portables

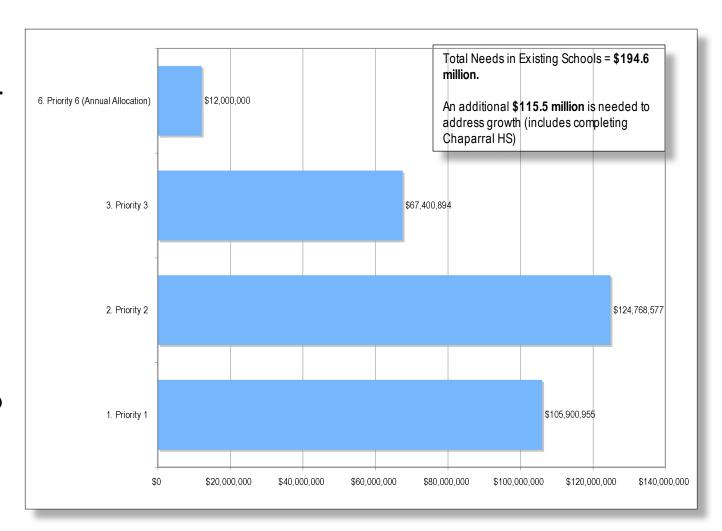

- 0. Issues note concerns
- 1. New schools 4 ES and 1 MS
- 3.,4.,5.Upgrades to school classrooms
- 6. Site needs as parking and playgrounds
- 8. Cyclical HVAC, roofing needs
- 11 Buy land for new schools
- 12.,13.,14. Studies
  - 15. Technology needs

- A. Systems relating to mechanical, electrical and special systems
- B. Code needs are being met
- C., D. work continue renovation work
- E. Site work is significant for paving and playgrounds
- F. Additions for gyms, classrooms, media centers, labs is main need (meeting adequacy standards)

- 1 the projects that would in the opinion of the evaluator would make the most impact on the school by being done first
- 2 second needed group of work
- 3 & 4- work that needs to be done but will be needed in the out years

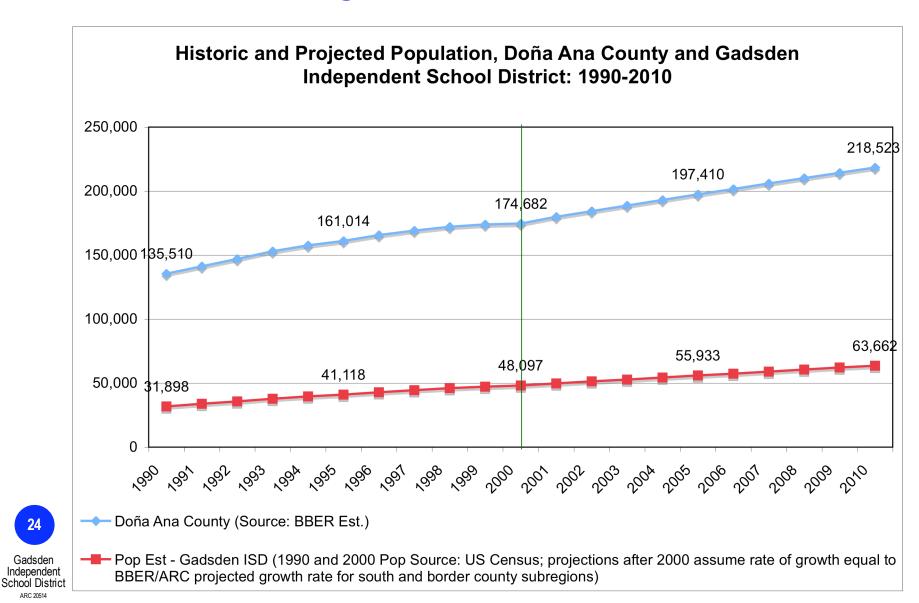

# **Enrollment**

## **Growth Summary**

- There has already been significant population growth in the GISD, and the district is projected to gain more of the share of the Doña Ana County population in the immediate future; however, young people will make up a smaller portion of the future population
- Most of the growth is in the southernmost part of the district - Sunland Park and Santa Teresa - and in Chaparral
  - ✓ These areas are closely connected to the El Paso metropolitan area, and may gain population as El Paso residents relocate farther away from the city

## **Projected Growth**

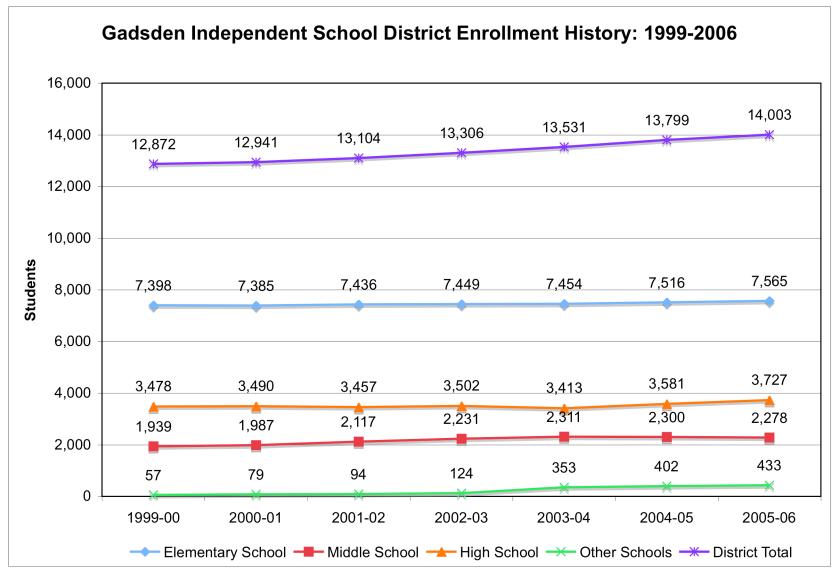

24

Gadsden

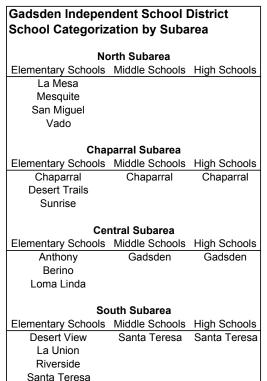

## **Growth Summary**

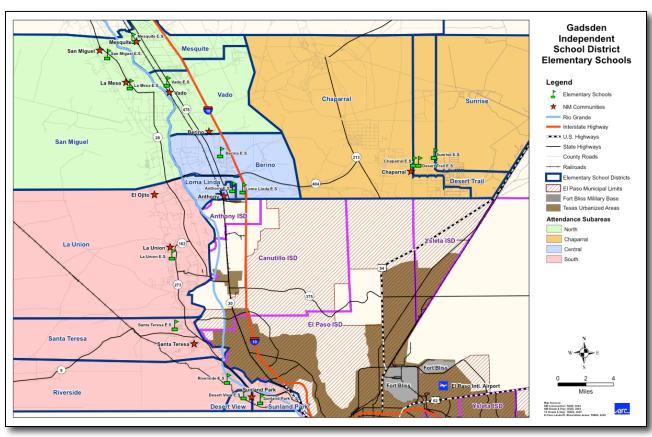

- While proposed developments, including Santa Teresa, are expected to have a positive impact on the area's growth, growth projections are tempered somewhat based on:
  - ✓ Infrastructure needs, including road improvements, that may extend the time before large population growth occurs
  - ✓ Competition with residential developments in El Paso and Las Cruces
  - ✓ Possible displaced growth from other areas of the district as residents who would otherwise relocate to these areas opt for the new developments

## **Historic Enrollment**

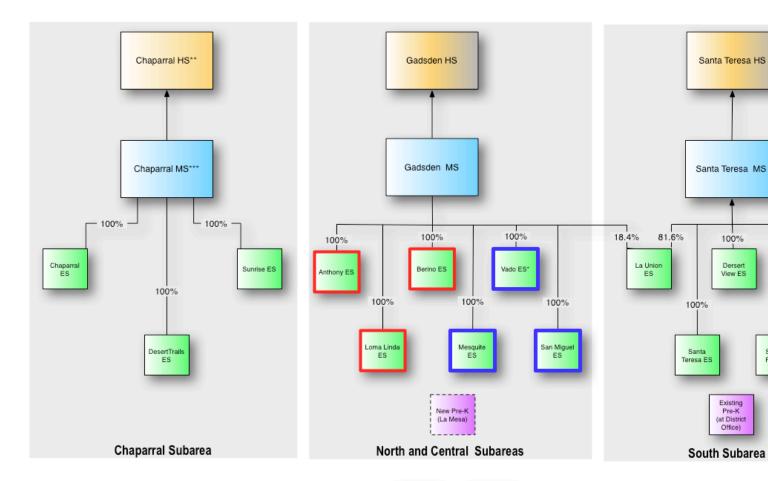

## **Attendance Sub-areas**

Sunland Park

# **Schools by Sub-areas**

\*\*Open for 9th Grade 08-09

\*\*\*Temporarily accommodating Chaparral HS enrollment

\*Vado ES replaces La Mesa ES (but students are still temporarily in La Mesa. La Mesa will become a Pre-K 100%

Gadsden

Independent School District

# **High School Enrollment History**

32

# **Enrollment Projection**

- Four enrollment projection scenarios were prepared based on historical trends and expectations for future growth
  - ✓ Low Range:
    - Based on average enrollment growth over the past six years
    - Enrollment increases at an average rate of 1.6% per year

#### ✓ Mid Range:

- Includes development of 100 housing units per year in addition to historic growth, located primarily in the south sub-area of the district
- Enrollment increases at an average rate of 2.1% per year

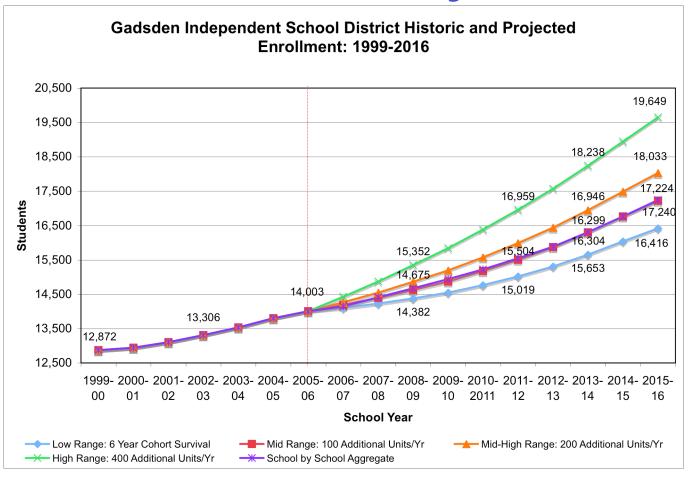

#### ✓ Mid-High Range:

- Includes development of 200 housing units per year in addition to historic growth, located primarily in the south sub-area of the district
- Enrollment increases at an average rate of 2.6% per year

#### ✓ High range:

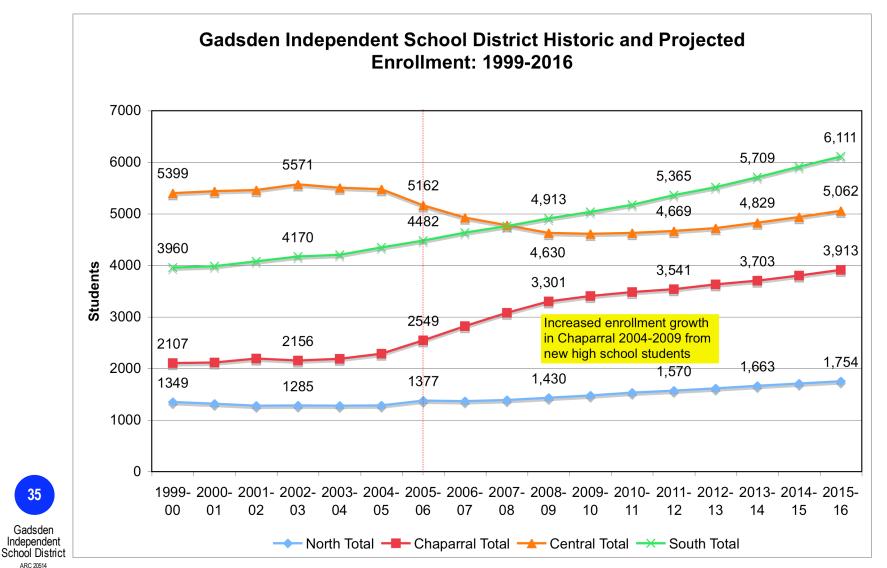

- Includes development of 400 housing units per year in addition to historic growth, located primarily in the south sub-area of the district
- Enrollment increases at an average rate of 3.4% per year

# **Enrollment Projection**

- All individual school projections are based on the mid range district projection
- Attendance at alternative programs, including Desert Pride Academy, is projected to be stable because of current space limitations

# **Enrollment Projections by** Region: Mid Range

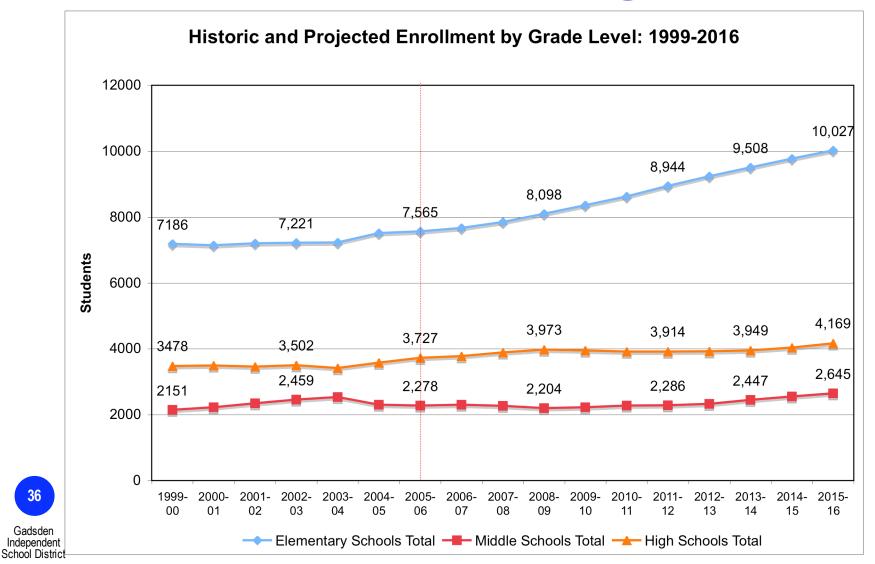

35

Gadsden

ARC 20514

# **Enrollment Projections by Grade: Mid Range**

36

ARC 20514

#### The consequences of this growth trend line

- ✓ Expect 4 ES in the ten year bracket
  - 1 Anthony / Central Area
  - 1- South Area
  - 1 Chaparral Area in mid term
  - 1 South Area #2 school in mid to long term of 10 year cycle
- ✓ Need some relief in MS population in near to mid term
- ✓ Completing Chaparral and Santa Teresa HS will meet demand in 10 year cycle

<b>Enrollment Changes</b>	1999	2015	% Change	Consequences
Elementary Schools	7,186	10,027	140%	Surge passing through the ES
Middle Schools	2,151	2,645	123%	Constant mild growth pre-surge
High Schools *1	3,478	4,169	120%	Constant mild growth pre-surge

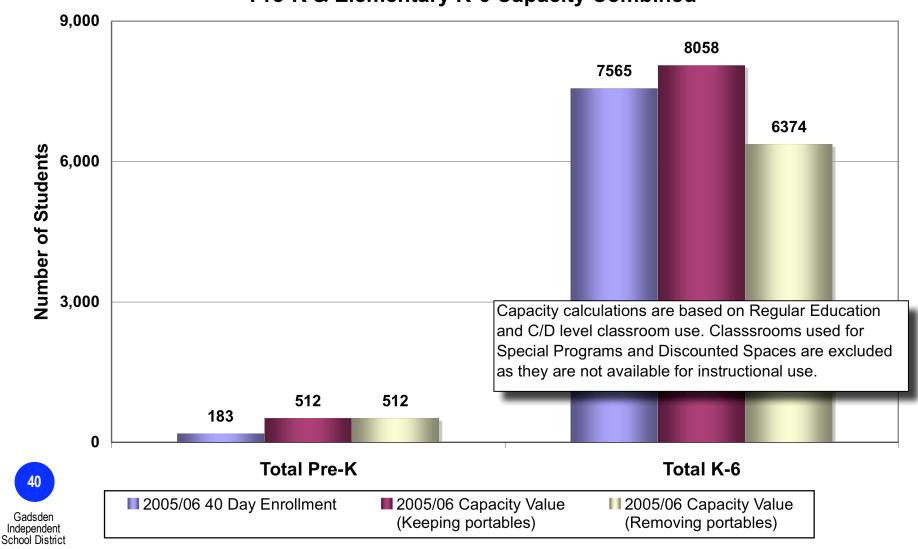

Note \*1 Includes alternative high school numbers

# Capacity / Utilization & Classroom Needs Analysis

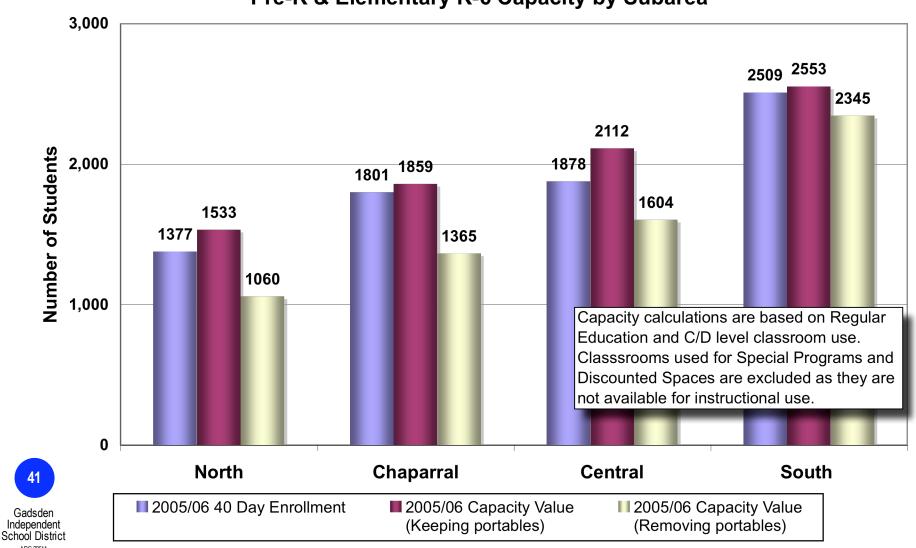

#### **Utilization / Capacity**

- Capacity identifies the number of students each facility can accommodate.
  - ✓ Capacity analysis is very similar to utilization analysis and uses the same data. However, while the intent of utilization analysis is to identify classroom use and needs, the focus of capacity analysis is to determine the student capacity of a facility given existing facilities and program constraints.
  - ✓ The capacity of the school is based on the number of students that can be accommodated in regular and special education classrooms. Spaces used for federal and categorical programs, other non-instructional purposes, and for classrooms that do not meet state adequacy standards are discounted.

#### Gadsden Independent School District High School Capacity by School

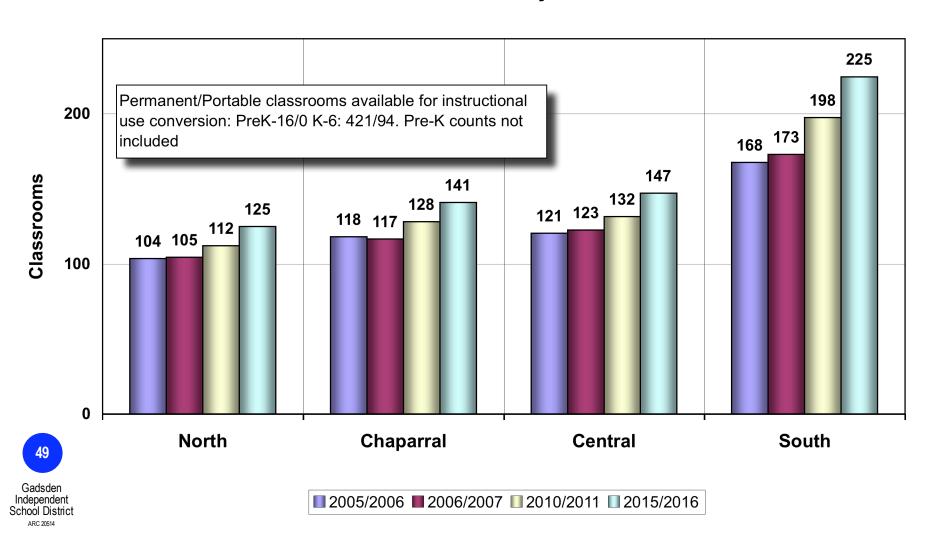

■ 2005/06 40 Day Enrollment ■ 2005/06 Capacity Value (with portables) ■ 2005/06 Capacity Value (without portables)

#### **Utilization / Capacity**

- Utilization Identifies existing classroom use and the number of classrooms to needed to accommodate a current and projected student enrollment
  - ✓ The supply of classrooms is based on a detailed inventory and use of all net instructional spaces available at each school (permanent and portables) housing general education, special education (C&D levels) and special programs (A&B special education, federal and categorical)
  - ✓ The demand for classrooms is determined by calculating the need for general and special education classrooms based on statemandated pupil teacher ratios and the special programs mix at each school for using existing and projected enrollments. Future Special program need is assumed to reflect the enrollment ratios that exist at each schools
  - ✓ The analysis then compares the number of classrooms needed to meet current and projected enrollments to the number of available (considering total classrooms and just permanent classrooms)

#### **Possible Growth Strategy**

- Factors that influence utilization / capacity
  - ✓ School configurations
  - ✓ Boundary decisions
  - ✓ Policies regarding size of schools ... prefer
    - ES no larger 500 students
    - MS no larger than 800 students
    - HS no larger than 1800 students
  - ✓ Policies regarding portables ... prefer
    - Replace all 'barracks' type buildings
    - No more than 15% of total on-site classrooms should be in portables

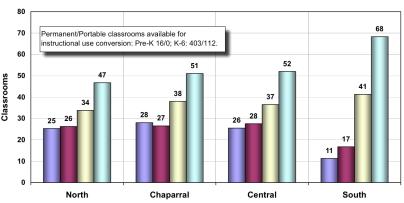

#### Possible Growth Strategy

#### Elementary Schools

- ✓ Growing enrollments
- ✓ High number of portables in north and central areas
- ✓ All sub-areas will see pressure for new schools or additions
  - New School / Boundary adjustments -North / Central areas
  - New School / Boundary adjustments -South area to accommodate growth
  - New School Chaparral area to accommodate growth and decrease portables
  - New 2nd South Area ES since growth not in area to allow additions at existing ES to cover need

■2005/2006 ■2006/2007 ■2010/2011 ■2015/2016

Elementary Schools				% Portables of
by subarea		Total	Total	Total
·	2005/06 Enrollment	Permanent	Portable	Classrooms
North	1,377	68.3	32.0	32%
Mesquite	501	26.3	14.0	35%
San Miguel	410	11.5	18.0	61%
Vado	466	30.5	0.0	0%
Chaparral	1,801	90.0	35.5	28%
Chaparral	719	30.0	23.5	44%
Desert Trail	586	29.5	12.0	29%
Sunrise	496	30.5	0.0	0%
Central	1,878	93.0	29.0	24%
Anthony	628	42.0	12.0	22%
Berino	673	25.5	17.0	40%
La Union	577	25.5	0.0	0%
South	2,509	152.3	15.0	9%
Desert View	511	26.5	5.0	16%
Loma Linda	283	27.5	3.0	10%
Riverside	694	39.5	3.0	7%
Santa Teresa	532	30.0	0.0	0%
Sunland Park	489	28.8	4.0	12%
Total ES	5,875	338.8	55.0	16%

#### Possible Growth Strategy

#### Middle Schools

- ✓ Appear to have capacity for current /mid-term needs
- ✓ Both Gadsden and Santa Teresa MS's will reach 1,000 students or more and District wants to reduce densities at MS to 800
  - Chaparral growth can be accommodated through portables or an addition
  - New middle school should be considered in the north (priority) and south areas to make smaller MS schools possible

#### High Schools

- ✓ Continue to construct future phases of Chaparral High School and final phases of Santa Teresa HS to meet growth in area
- ✓ Start on the rehabilitation of Gadsden HS for equity of space and environment to other two HS

## **Capital Financing**

#### **Bonding History**

#### GO Bond History

- ✓ 2000 \$15.5 m
- ✓ 2003 \$21 m
- ✓ 2006 \$38 m (shift to a 4 year cycle)
- √ 2010 \$35.9 (anticipated)

#### PSCOC Match Eligibility:

- √ 87% state / 13% local
  - Based on approved projects reflected in GISD's FMP

#### **Capital Financing**

- PSCOC awards with local match from GO Bond 2002
  - ✓ 2003-04 (\$2m + \$8 m SB513 set aside)
    - Northern Area ES (San Miguel ES option)
    - Design Chaparral HS (Phase 1 of HS was legislative appropriation)
    - Phase 2 Santa Teresa HS
  - ✓ 2004-05 (\$10.8 m)
    - Second new northern/central ES (Vado ES)
  - ✓ 2005-06 (\$9.76 m)
    - Gadsden MS upgrades and additions \$11.9 total project

- Process of establishing priorities of implementing work that covers all projects of the Facilities Master Plan
- The District staff conducted steps 1-4 from the process chart to determine the recommendations to the School Board. School and community input on this process was done during the public overview workshop with the Board

- The total capital needs are divided into 3 Tier funding levels
  - ✓ Tier 1 the projects to be considered for the GO 2006-10 election. See following charts for this Tier
  - ✓ Tier 2 Identifies the order of work the district would like to bring on line if funding were made available. See the FMP text for description of this work
  - ✓ Tier 3 Also future funding projects (more want than need often). See the FMP capital improvement projects summaries for this list of work

- Proposed Decision Making Guidelines for Tier 1 Process
  - ✓ Each Guideline represents a "basket" of projects that serve as a starting point for selecting specific projects to be in GO Bond program

Continue Projects in Progress
Provide On-Going District funds
Health/Safety and Critical Code Projects
Address Growth ("un-housed students")
Align with NMCI Ranking (< 200)
Critical Systems with High Priority
Facility Renewal (scores less 75%)
Key Educational/Programmatic or Liability Issues
Replace Barracks / Old Portables
Contingency

#### Tier 1 Recommendations

- ✓ 3 scenarios were developed for \$38 million GO 2006-10
  - Scenario 1 Must Do projects that must be done to meet obligations assuming limited PSCOC involvement = \$31,000,000
  - Scenario 2 Low PSCOC Funding in the event PSCOC can not fund phases two and three of Chaparral HS the district will be limited to meet its facilities needs at its bonding level \$38,000,000
  - Scenario 3 High PSCOC Funding assumes PSCOC will be able to provide the state match for the completion of all on-going and NMCI ranked schools. Then the district will have funds available to resolve poor condition issues elsewhere in the district. See next chart for details.

- Yearly the District must reassess its overall FMP priorities based on updated NMCI ranks
- Board priorities for 2006 PSCOC Application

District			
Ranking	School / Project	Proposed \$ Need	NMCI Rank 1-18-06
1	GADSDEN HIGH SCHOOL RENOVATIONS	\$ 22,000,000	49
2	ANTHONY ELEMENTARY		101
2a	PHASE 1 Renovations	\$ 6,000,000	101
2b	PHASE 2 New School in Anthony area	\$ 13,000,000	Growth
3	CHAPARRAL HIGH SCHOOL PHASE 2 and FIELDS	\$ 15,000,000	Complete what started
4	NEW SOUTHERN ELEMENTARY - Governor's Proposal	\$ 13,000,000	Growth
5	SANTA TERESA MIDDLE SCHOOL CIP'S	\$ 8,000,000	118
6	SAN MIGUEL ELEMENTARY / MS SITE *1	\$ 19,000,000	138 / Growth
7	DESERT PRIDE ACADEMY	\$ 5,000,000	713 / Move to better location
8	CHAPARRAL ELEMENTARY SCHOOL	\$ 6,000,000	296 Replace old barracks
9	WAREHOUSE/SHOPS/MAINTENANCE	\$ 5,000,000	Unranked / Unsafe and old
10	CHAPARRAL HIGH SCHOOL PHASE 3	\$ 13,000,000	Complete what started
	Total Need under highest priority	\$ 125,000,000	

Notes: \*1 - This work is possible once the New Northern Elementary School is completed. To build northern middle school To relieve the anticipated growth for Gadsden MS and Santa Teresa MS and reduce crowding in Gadsden MS
