Background and Summary:

This is the annual renewal of the MOA between the Peak Behavioral Health Services and GISD. The Peak is located within the boundaries of the GISD. GISD is required to provide educational services to school-age students residing there, which includes both general education and special education students. GISD is currently providing 3 teachers and 2 instructional aides and core academic classes to a maximum of 63 students (currently there are 38 general education and 18 special education students for a total of 56). In addition, the District provides three portables (one double and two singles) on the Peak site for instructional purposes, as well as instructional supplies and materials. GISD receives state and federal funding for students residing at the Peak in the same manner as it does for all students residing in the district.
