RE: Award Recommendation Letter for Bids Submitted for the Proposed Asbestos Abatement Project at Chaparral Elementary School

Sun City Analytical, Inc. (SCAI) reviewed the submitted bids from the three bidders for the proposed asbestos abatement project mentioned above. The three bidders' Border Demolition (BD), Keers Remediation (KR), and Southwest Hazard Control (SWHC) submitted complete and acceptable proposals as per the specifications. However, Southwest Hazard Control submitted the lowest bid. SCAI has worked with SWHC and they have performed on GISD projects before with satisfactory outcomes. SCAI recommends that GISD accept this bid proposal and enter into a contract with SWHC for this project.

Sincerely,
Sun City Analytical, Inc.

Luis M. Acuña, PEA, CIAQP, CIEC
