

School Safety Officers

- A proposal to offer school safety officers has been discussed as a partnership between Gadsden ISD and Dona Ana County Sheriff's Department
- I have participated in multiple meetings with county officials to help work out the details
- We have allocated funds to launch this partnership
- During these conversations we did discuss the need to “Cross Commision” some law enforcement officials
- We have to understand that is program could take several years to build as it is dependent upon the ability to recruit individuals into these positions, however we do believe it is a worthy project

Questions/ Concerns/ Ideas
